 CLEAR DECORATIVE  
 SPARKLE GLITTER CHIPS

PRODUCT  
 DATA  
 #9600

03/26/10  
 superseding: 09/01/09

**PRODUCT DESCRIPTION:**

**DIAMOND DUST™** is a clear, sparkling glitter, shiny material that adds a stylish decorative flair to most any paint or coating.

**PRODUCT USES:**

**DIAMOND DUST™** is most commonly used to add a glitter effect to interior and exterior walls and ceilings. It can, however, also be used on most any surface being coated, including floors, roofs, exterior walls and so on. **DIAMOND DUST™** can be used with most any fluid applied coating product with whatever finish (flat, satin, semi-gloss) is available.

**SURFACE PREPARATION:**

Refer to the Surface Preparation on the manufacturer's data sheet for the specific product over which **DIAMOND DUST™** will be used. Because loose **DIAMOND DUST™** will settle after application, the area below where the **DIAMOND DUST™** will be applied should be well masked and covered. This will make clean up much easier and aid in residual collection.

**APPLICATION PROCEDURE:**

Apply the coating being used per the manufacturer's instructions. After the coating has been applied, but before it has dried, the **DIAMOND DUST™** should be applied. The wetter the coating is, when the **DIAMOND DUST™** is applied, the more **DIAMOND DUST™** will adhere to the coating. Application is usually done with a broadcast spreader called a glitter gun or a puffer to get an even coating. **DIAMOND DUST™** can also be applied manually by hand.

**CLEAN UP:**

Refer to the clean up section on the manufacturer's data sheet for the specific paint or coating to which **DIAMOND DUST™** will be added. Loose **DIAMOND DUST™** can be removed, as normal dust can, with a vacuum or damp mop / cloth.

**TECHNICAL SPECIFICATIONS:**

COLOR:	Clear Sparkle Chips	PACKAGING:	1 Pound & 5 Pound Packages
COMPOSITION:	Crushed Mineral Glass	PARTICLE SIZE:	20 - 30 microns
SPREAD RATE:	Approximately 100 square feet per pound (Spread rate will vary depending on glitter effect preference glitter effect.)
