WEATHER GUARD™

WEATHER GUARD™ is a 100% acrylic, with urethane, insulating and soundproofing ceramic, waterborne Industrial Latex Enamel. It is an interior or exterior formula that resists: rust, corrosion, stains, fading, scrubbing and also qualifies for a Class A Fire Rating. It has excellent resistance to weathering properties of high humidity, salt air, elevated temperatures and ultraviolet degradation.

The urethane polymer composition gives **WEATHER GUARD™** superior chemical resistance and a hard, durable finish of protection with a beautiful enamel sheen. It is an innovative waterbase enamel that is zinc rich providing direct to metal adhesion & corrosion resistance.

WEATHER GUARD™ provides all the advantages of solvent industrial enamels without the use of solvents, including the benefit of easy application and water clean up. The self leveling enamel finish will provide many years of durability and protection.

Features that make **WEATHER GUARD™** the Best!

- Forms a Durable Ceramic Enamel Shield of Protection*
- Insulating Ceramics Save on Energy Costs*
- 100% Acrylic With Urethane Waterproofing Membrane*
- Protection from the Damaging Effects of the Sun*
- Low V.O.C. Environmentally Friendly*
- Ultraviolet Ray Reflective Pigments*
- Resists over 100 M.P.H. Wind Driven Rains*
- Standard Bright White - Tintable in any Custom Color*
- Available in Flat, Semi-Gloss, and Gloss Finishes*
- 10 Year Limited Material Warranty*
