CONCRETE PENETRATING STAINS PROTECTIVE PAINTS & CLEAR SEALERS

*proven to
outperform
solvent based
products*

Available in over One Thousand Colors!

Nationwide's high-performance concrete, masonry and deck stains, paints and protective preservative sealers are available in residential, commercial and industrial performance grades. New technology Environmentally Safe, Low V.O.C. waterborne formulations of acrylic resins and the highest quality pigments gives the convenience of water clean up while surpassing the durability of solvent-based paints and stains. They possess excellent penetration on porous surfaces and superior adhesion on non-porous or compatible previously coated surfaces. These concrete coatings also have excellent durability and provide for increased water and chemical resistance, plus superior resistance to ultraviolet degradation. A beautiful decorative satin finish with superior film hardness provides excellent mar, scratch and abrasion resistance, and excellent protection against hot tire pick up. Nationwide's concrete stains & paints are easily maintained protective finishes that will last for many years and have excellent recoatability. For smooth, non-porous surfaces, inquire about CRETE-GRIP™, an adhesive bonding primer.

Nationwide's high-performance concrete, masonry and deck clear protective preservative sealers are available in residential, commercial and industrial performance grades. New technology Environmentally Safe, Low V.O.C. waterborne formulations of acrylic resins give the convenience of water clean up while surpassing the durability of solvent-based paints and stains. They possess excellent penetration on porous surfaces and superior adhesion on non-porous or compatible previously coated surfaces. These concrete coatings also have excellent durability and provide for increased water and chemical resistance plus superior resistance to ultraviolet degradation. Film hardness provide excellent mar, scratch and abrasion resistance, and excellent protection against hot tire pick up. They dry to a beautiful decorative non-yellowing clear gloss finish. Nationwide's concrete clear sealers are easily maintained protective finishes that will last for many years and have excellent recoatability.
